

# Closures and disruption on the A15 between Ridderkerk and Deil

July, August and October 2024, 4 week closures and 3 weekend closures

Traffic closures

## Closures from Friday 12 July up to Monday 28 October

Due to multiple closures on the A15, Rijkswaterstaat expects severe disruptions between Ridderkerk and Deil from 12 July up to 28 October. During 4 week closures and 3 weekend closures, Rijkswaterstaat will renew the asphalt. All roadworks will take place in just one direction, while the other direction is available. All traffic must take extra travel time into account, possibly over more than one hour.

## Details of the closures

- From Friday 12 July 10 PM up to Friday 19 July 5 AM: week closure junction Gorinchem in the direction of junction Deil;
- From Friday 19 July 10 PM up to Friday 26 July 5 AM: week closure junction Deil in the direction of junction Gorinchem;
- From Friday 9 August 10 PM up to Friday 16 August 5 AM: week closure A15/N3 in the direction of junction Gorinchem;
- From Friday 16 August 10 PM up to Thursday 22 August 5 AM: week closure junction Gorinchem in the direction of the A15/N3;
- From Thursday 22 August 5 AM up to Monday 26 August 5 AM: long weekend closure A15/N3 in the direction of junction Ridderkerk-Zuid;
- From Friday 18 October 10 PM up to Monday 21 October 5 AM: weekend closure junction Ridderkerk-Zuid in the direction of the A15/N3;

- From Friday 25 October 10 PM up to Monday 28 October 5 AM: weekend closure connecting roads junction Deil.

## Diversions

The yellow signs and information panels at the side and above the road will indicate the diversion routes. For more information about the diversions, visit [www.rijkswaterstaat.nl/grootonderhouda15](http://www.rijkswaterstaat.nl/grootonderhouda15).

## About the roadworks

During the roadworks, Rijkswaterstaat will renew the asphalt and repair or replace multiple kilometres of guardrails. Additionally, we will replace joint transitions and lower verges. We will also carry out repairs on viaducts and bridges. With these roadworks, Rijkswaterstaat ensures that this important connecting road between the east and west of the Netherlands can also be used smoothly and safely in the future.

Do you have a question about these roadworks or about the diversion routes? Send a message to our [X account](#) or call **0800-8002** for free.
